Macdonald's Consolidated Ltd., Wholesale Grocers Opens Wholesale at G.P.

Macdonald's Consolidated Limited have opened a wholesale grocery in Grande Prairie in the block two doors east of Thompson's Hardware and are ready for business after moving their stock from the train in record time on June 7.

H. Macdonald, manager of the Edmonton branch, is here superintending arrangements. Fred D. Hickman, who has been with the company for the last 12 years and who is assisting Mr. Macdonald, will be in charge.

Interviewed by The Tribune reporter, Mr. Macdonald stated that the importance of the district and the town as a distributing center has prompted the company to establish a wholesale branch here.

This makes the third company branch in the Peace River, the other two being at Dawson Creek and the town of Peace River.

Mr. Macdonald said that with the establishment of the branch at Grande Prairie the company completes a wholesale grocery service which covers the entire Peace River country.

Mr. Macdonald, in discussing the wide area served by the company, said that it had now 25 wholesale grocery houses in western Canada.

Business will be done by the local house through the price list method. A full line of groceries, tobacco and confectionery will be carried.

Mrs. Hickman and son will follow in a few weeks.

In the junior division there were three entries: Beaveridge, Wembley, and Grande Prairie. The last named beat Beaveridge by a narrow margin for first place.

In the senior division Grande Prairie won first place after a hard tussle with Northfield.

There was a good-sized turnout each team having a goodly number of followers who were not backward in rooting for their players.

The results:

PRIDE OF ATLANTIC FISHING FLEET EN ROUTE TO CHICAGO

This picture shows the famous "Bluenose" fishing boat, heading of many a race on the Atlantic, as she arrived at Toronto en route to Chicago and the World's Fair.

More than two weeks ago the Bluenose has travelled almost a thousand miles up the St. Lawrence, through canals and across freshwater lakes. The white and dark blotches on her hull are not patches, but posters advertising her destination, Chicago.

Ed. Patterson Loses In Third Round

Before a crowd which packed the Capital Theatre to capacity on the evening of June 3, Ed. Patterson of Dawson Creek went down to defeat before his more experienced opponent, "Albion" Clark, in the main bout on the card presented by Promoter Frank Donald. The bout was scheduled to go ten rounds, but Referee Connel stopped it in the third, after Patterson had been knocked down several times.

Patterson entered the ring at 164 pounds and Albion Clark at 161.

The first round had gone very well for when it was plainly seen that Patterson did not have a chance. It was a case of a young, robust and willing fighter meeting a man who had too much experience, and when Referee Connel stopped the fight in the third round after it had gone about one minute and thirty-five seconds his action met with the approval of the audience.

Although clearly defeated, Patterson won the admiration of everyone present by his manner. He simply stepped out of his class, that is all.

Bent on making a short fight of it, and relying on his hitting ability, Patterson rushed from his corner and landed into one minute and thirty-five seconds his action met with the approval of the audience.

Clairmont Annual Sports Attract Good Sized Crowd Who Spend Enjoyable Time

U.F.A. Convention To Be Held at Sexsmith June 27

There was a good-sized crowd in attendance at the Clairmont sports held on Wednesday afternoon. Horse racing, softball, baseball, basketball and a splash of bucking were the chief items of attraction.

Sexsmith, Wembley, Beaveridge, Grande Prairie and surrounding districts were well represented. There were even men in attendance from Wabasca.

In the forenoon the weather looked threatening, but fortunately cleared. However, a shower at 5 p.m. sent everyone to cover.

The Clairmont sports ground among the finest in the north country, never looked better and the afternoon was most enjoyable.

The dance in the hall in the evening was well attended and The Tribune was informed that a favorable balance was shown on the day's entertainment.

Horse Racing
The track was in first-class condition and the races were good. There were four entries in the five-for-all running race.

In the first heat Miss Ruby, owned by Frank Donald, won first; Diamond, owned by Bob Ireland, second; Pony, owned by Miss Clark, third; and Lady Guard, owned by Harrie Conrad.

In the second heat Diamond was leading at the turn coming home when he suddenly left the track and bolted for an open gate, striking one of the posts and throwing his rider, Bob Ireland. It was at first thought that Ireland was badly injured, but later he was up and around.

The race ended with Miss Ruby as first, Diamond second, and Ruby, as an Ireland entry, was third, with Fleet as fourth.

The money race went to the horse owned by Miss Clark, while Miss Ruby (Continued on Page Eight)

Bezanson to Ask G.P. to Declare June 14 Holiday

BEZANSON, June 6.—A petition to be circulated throughout the district, asking the G.P. to declare June 14 a holiday, was presented to the Mayor of Bezanson, asking that the holiday be declared.

The holiday was declared on Bezanson's annual sports day, June 14.

A date was decided on before the annual sports day. As the by-law was adopted, it felt that as the last day of the Grande Prairie's best customer it should be given a little special consideration on its one big day of the year.

Briefly stated, the last day of the year, June 14, is the day when the Grande Prairie's best customer it should be given a little special consideration on its one big day of the year.

Half-Holiday By-Law Meets Defeat; Many Other Matters Dealt With at Busy Session

The striking of the mill rate, consideration of the proposed half-holiday and the by-law exempting certain church property were the principal business dealt with by the town fathers on Monday evening last.

The mill rate was struck at 37 mills, the same as last year.

Before submitting the mill rate to the town's secretary, R. Keys, presented figures to show how the rate was arrived at.

He pointed out that there was a 10 per cent increase in the value of the town, which is equal to reduction of 2 mills on last year's basis. In other words, had the mill rate been worked out on last year's assessed valuation it would have been sufficient to strike a rate of 34 mills.

In striking the mill rate, Mr. Keys explained it had been arrived at on an estimated 60 per cent current value, but on a basis of 75 per cent, as at last year, when only 50 per cent of current taxes were collected.

Had the rate been worked out on the full value, the rate would have been 37 mills, the same as last year.

On being put to the council the mill rate was unanimously passed.

The key is divided as follows:

General	Public School	14
Public and High School	10	14
Separate School	2	18
Supplementary Revenue	2	2
Half-Holiday	37	36

As was anticipated, there was considerable discussion when the by-law exempting certain church property was presented to the council to exempt church property other than the house of worship has been a much argued point. The town solicitor had been asked for an opinion, which was read.

Whether the town has the power to exempt church property other than the house of worship has been a much argued point. The town solicitor had been asked for an opinion, which was read.

Chiefly stated, the solicitor gave it as his opinion that it was within the town's charter, but did not have the power to (Continued on Page Eight)

ITALY'S AIR ARMADA POISED FOR ATLANTIC HOP

With men and machines tuned to concert pitch, General Balbo, Italian air minister, is holding his flock of twenty-four seaplanes and their crews of nearly one hundred men in readiness at Brindisi, Italy, for the start of the great mass formation flight to Chicago. The flight is Premier Mussolini's tribute to the Century of Progress Exposition. The starting date for the take-off was originally set for May 24, but weather conditions necessitated a postponement. Now, owing to ice conditions at the northern section of the route, the flight will probably be delayed until June 15 at the earliest. The route will take the seaplanes from Brindisi to Amsterdam, Holland, thence to Londonderry, Ireland, where it will make a sea hop to Reykjavik, Iceland. Refueling there, the armada will fly on to Cartwright, Labrador, thence to Quebec, Canada, and down the homestretch over the Great Lakes to Chicago.

AMATEUR BROADCASTING

An automatic radio, immensely simplifying the process of sending messages, has been developed in France. The apparatus can be operated by anyone knowing how to read, obviating the necessity of a trained wireless operator. It works by means of knobs, which are turned like the knobs on a radio receiving set. The letters of the alphabet and various signals are printed on a dial turned by a knob, messages thus being spelled out.

A GOOD EYE EXERCISE

Newspaper Reading Also Provides For Individual Sight Test

Newspaper reading is excellent exercise for the eyes, Harry L. Fong of Los Angeles told the Missouri Optometric Association at its annual convention in Kansas City.

Newspapers, Fong added, also provide for an individual to test his own eyes. Hold the paper in a good light, he said, about 16 inches from the eyes. If you can read it easily, your eyes are all right.

To make the test still more conclusive, move the paper quickly to about nine inches from the eyes. If you can still read it, there's absolutely nothing wrong with your vision.

ROBBER BEES ACTIVE

Will Overpower Weak Colonies and Carry Honey Away

Although honey stealing is likely to be most troublesome in late summer, the bee-keeper has to keep in mind that robber bees may start their racket at any time. In warm weather when there is little or no honey to be got from the flowers, the bees will easily yield to any temptation to obtain food. After robbing, they are fighting they will overpower any very weak colonies, and carry the honey to their own hives. Old robber bees have a shiny appearance, the hair having become worn off with constant flying. No colony should be allowed to grow weak, says the Dominion Apiarist, and no honey or syrup should be exposed in the apiary.

THE BENEFIT OF LAUGHTER

Good Antidote For Many Misfortunes In Life

There is, apparently, a standing alternative between annoyance and amusement over life's ironical accidents and he who lives best is he who laughs best for relief from his fears and tension of his own trials. It is a child's privilege to laugh because he is tickled, but the adult must learn to laugh in the face of misfortune, hardship and even pain or he becomes the unhappy slave of his own circumstances. Such laughter, it seems, has a definite therapeutic value. It has long been said that one may laugh and grow fat, but it is more important to the modern man that he learn to laugh in the face of nervous prostration. Miss Mary F. Ferguson, supervisor of social service at Johns Hopkins University, advocates laughter as an antidote for all sorts of neuroses and even for mental disorders.

THE UTILITY OF GARNET

Has Its Place In Assisting Farmers In Certain Districts

Should success crown the present experiments of the Dominion Department of Agriculture in combining the outstanding qualities of Garnet and Garnet wheat, says Mr. Newman, the Dominion Cerealist, it would be difficult to compute the value of such an accomplishment to Canada. Although Garnet is not considered quite the equal of Marquis from the point of quality, many farmers report that Garnet is enabling them to carry on where they might otherwise have had to give up. Garnet, however, is not recommended for any district where either Marquis or Garnet thrives satisfactorily.

BEST CONTAINER FOR CREAM

A well soldered, plain-bottomed tin can, about 8 inches in diameter and 20 inches deep has been found by dairy farmers to be the best kind of vessel in which to hold cream. exempt church manes, halls, etc., from taxes. He quoted a number of authorities to support his contention. The Mayor said that considering that Judas and his associates had the matter and as the council passed a similar by-law last year, and as conditions have not improved to any great extent, he thought the by-law should be passed.

The sum of \$375 was given as the amount the churches would have to pay on the property tax.

On motion of Councilman Croken the by-law was given the third reading and carried, with Councilman Croken and Spencer voting against.

A. H. Murphy was present, but protested against the passing of the by-law. He claimed that the churches were not within their rights in asking for such exemption and the council was not within its legal rights in passing the by-law.
